ACCOUNTING

Paper 2 Structured Questions

Candidates answer on the Question Paper.
No Additional Materials are required.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.
Write in dark blue or black pen.
You may use an HB pencil for any diagrams or graphs or for rough working.
Do not use staples, paper clips, glue or correction fluid.
DO NOT WRITE IN ANY BARCODES.

Answer all questions.
All accounting statements are to be presented in good style.
International accounting terms and formats should be used as appropriate.
Workings must be shown.
You may use a calculator.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.
1 Ramadhin, Statham and Trueman formed a partnership on 1 January 2016.

The draft profit for the year ended 31 December 2016 before appropriation was $232,000, but did not account for the following:

1 A non-current asset costing $20,000 was purchased on 1 July 2016. No depreciation has been charged on this asset.

   The partnership’s policy is to charge depreciation at 20% using the reducing balance method on all assets.

   A full year’s depreciation is charged in the year of purchase and none in the year of disposal.

2 Some inventory which had been valued at a cost of $15,000 had been damaged. The mark-up on inventory is 100%. The damaged inventory could only be sold for 20% of the normal selling price.

REQUIRED

(a) Calculate the adjusted profit for the year ended 31 December 2016 before appropriation.

........................................................................................................................................
........................................................................................................................................
........................................................................................................................................
........................................................................................................................................ [4]

Additional information

On 1 January 2016 Ramadhin, Statham and Trueman had introduced capital of $600,000 in their agreed profit and loss sharing ratio of 3:2:1 respectively.

The other terms of the partnership agreement were as follows:

1 Interest of 6% per annum is to be paid on the opening capital account balances.

2 Each partner is to take drawings of $10,000 per annum. Interest is to be charged on total annual drawings at 4% per annum.

3 Trueman is to receive a salary of $1000 per month.
REQUIRED

(b) Prepare the partnership appropriation account for the year ended 31 December 2016.
(c) Explain why partners may value goodwill and revalue the assets when one partner retires.

Additional information

Trueman received an offer of employment which would provide him with a gross annual income of $50 000. He decided to accept the offer and leave the partnership on 31 December 2016.

At that date goodwill was valued at $12 000.

It was also agreed that the partnership assets should be revalued at $7500 less than their net book values.

Trueman agreed to leave 40% of the balance due to him as a loan to the partnership at an interest rate of 10% per annum. The remainder was paid to him from the business bank account.

REQUIRED

(d) Prepare a statement showing the amount that Trueman received on leaving the partnership.
(e) Assess whether or not Trueman was correct in his decision to leave the partnership. Justify your answer by discussing the financial and non-financial factors involved.

[5]

Additional information

Trueman asks Ramadhin and Statham for an early repayment of his loan to the partnership.

REQUIRED

(f) Advise the partners whether or not they should make an early repayment. Justify your answer.

The following is an extract from the statement of financial position of WX Limited at 1 March 2016:

<table>
<thead>
<tr>
<th>Equity</th>
<th>$</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ordinary share capital ($0.50 each)</td>
<td>150 000</td>
</tr>
<tr>
<td>Share premium account</td>
<td>60 000</td>
</tr>
<tr>
<td>Retained earnings</td>
<td>40 000</td>
</tr>
</tbody>
</table>

The following additional information is available:

1. On 30 April 2016, the non-current assets were revalued from their net book value of $175 000 to $225 000.
2. On 30 June 2016, a bonus issue was made on the basis of three ordinary shares for every ten held. Reserves were kept in the most distributable form.
3. On 30 September 2016, a rights issue was offered on the basis of one ordinary share for every eight held. The ordinary shares were offered at a price of $0.80 per share and the issue was fully subscribed.
4. On 31 December 2016, the company paid a dividend of $0.04 on all shares in issue at that date.
5. Profit for the year ended 28 February 2017 was $50 500.

**REQUIRED**

(a) Prepare a statement of changes in equity for the year ended 28 February 2017 (A total column is not required.)

<td>$10.00</td>
<td>$25.00</td>
<td>$50.00</td>
</tr>
</tbody>
</table>

Maximum monthly demand 100 units 120 units 60 units

Fixed overheads are forecast to be $7000 per month.

Y Limited has enough resources and capacity to meet the maximum monthly demand.

REQUIRED

(a) Calculate the contribution per unit for each product.

(b) Prepare a statement to show the maximum contribution and maximum profit that Y Limited can earn for the month of July 2017.
(c) Calculate the total machine hours required to meet maximum demand for the month of July 2017.
Additional information

Due to a machine breakdown, only 500 machine hours will be available for July 2017 production.

REQUIRED

(d) Calculate the maximum contribution **and** the maximum profit for the month of July 2017, taking into account the limited machine hours available.
Additional information

The directors of Y Limited have been told that they could hire a replacement machine for the month of July 2017 at a cost of $2500.

REQUIRED

(e) Advise the directors whether or not they should hire the replacement machine. Justify your answer by considering both advantages and disadvantages of hiring the replacement machine.

(f) State three short-term decisions, other than limiting factor decisions, where marginal costing would be useful.
Additional information

The following information is available for another division of Y Limited. The division operates a system of absorption costing with two production departments.

<table>
<thead>
<tr>
<th></th>
<th>Department 1</th>
<th>Department 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Budgeted overheads</td>
<td>$560 000</td>
<td>$304 000</td>
</tr>
<tr>
<td>Actual overheads</td>
<td>$533 000</td>
<td>$294 000</td>
</tr>
<tr>
<td>Budgeted labour hours</td>
<td>140 000 hrs</td>
<td>46 000 hrs</td>
</tr>
<tr>
<td>Actual labour hours</td>
<td>124 000 hrs</td>
<td>54 000 hrs</td>
</tr>
<tr>
<td>Budgeted machine hours</td>
<td>27 000 hrs</td>
<td>160 000 hrs</td>
</tr>
<tr>
<td>Actual machine hours</td>
<td>33 000 hrs</td>
<td>151 000 hrs</td>
</tr>
</tbody>
</table>

**REQUIRED**

(g) Calculate to two decimal places an appropriate overhead absorption rate for each department.

(h) Calculate the over absorption or under absorption of overheads for each department.
