This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners’ meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2017 series for most Cambridge IGCSE®, Cambridge International A and AS Level components and some Cambridge O Level components.
**Note:** All Examiners are instructed that alternative correct answers and unexpected approaches in candidates’ scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated. Nonetheless, the content must be clearly related to and derived from the passage.

| 1 | There has been a proposal for an area to be designated for street art and for street art workshops to be run for young people where you live. Write a letter to the local newspaper giving your views. In your letter you should:  
- explain and evaluate the different opinions about graffiti or street art in the article  
- give your own views on how far you think the proposal will benefit the local area. Base your letter on what you have read in the article, but be careful to use your own words. Address each of the bullet points. Begin your letter, ‘Dear Editor…’. Write about 250 to 350 words. Up to 10 marks are available for the content of your answer, and up to 15 marks for the quality of your writing. | 25 |
Question: Responses might use the following ideas:

A1 explain and evaluate the differing opinions about graffiti or street art in the article

Opinions considered might include reference to:

- **terms used** for it/to describe it – graffiti is negative, street art suggests some value/admiration for it, ‘attacks’ or ‘exhibitions’
- **legality** – custodial sentences for those involved (evaluation: mixed message to prosecute for vandalism yet actively and openly promote in museums, makes a mockery of the law/shows the law is outdated)
- **quality** issues – (evaluation: subjective judgment e.g. tags viewed by some as attractive/desirable)
- **frequency/scale** of it – e.g. 120 night time attacks becomes invasive/a nuisance to others e.g. if having to clean off all the time (evaluation: might be tolerated if less wide spread/sustained)
- **location** – on a van/wall or in an art gallery (evaluation: issue around rights/permission of owner as compared to right of the artist)
- **monetary considerations** +/- effect on property including prices
- **legitimacy as an art form** – role models/famous street artists e.g. Banksy (evaluation: leads others astray/has changed social attitudes/brought art to the young)
- **galleries/exhibitions** – bringing in a new audience who wouldn’t go to galleries otherwise/expanding cultural horizons

Examples of some of the possible evaluation are given in brackets.
**Question 1**  
A2 give your own views on how far you think the proposal will benefit the local area

Ideas considered might include:

- **siting of designated area** might be an issue – still local/can still see it so may still be a problem for those who consider it unsightly, anyone close to it may object
- **changes nature** of the art form – spontaneous graffiti – artists may not want to use an ‘official area’ seeing unofficial nature of it part of the attraction of street art
- **workshops** encouraging more to take part/practice more could make the issue worse/raise awareness of need to consider rights and quality issues
- designated area **might attract more** artists/vandals to the area could be seen as a tourist attraction/add value (cf. Banksy/vans in Melbourne) or seen to exacerbate the problem by those who object
- how monitored/cleaned – **practical issues** will need resolving e.g. will the designs be cleaned off after a while. What if they are considered good/valuable etc? How about offensive material?
- **emotive issue** – legality of it a concern/people’s views on art differ – will it encourage illegal activity to legitimise it?
- **workshops** – funded by whom and run by whom – employing criminals?

The discriminator is the evaluation of the likely and differing reactions to the proposal based on the differing attitudes and opinions suggested in the article. This requires candidates to draw inferences and make judgments. Perceptive responses may choose to argue from a definite perspective e.g. that of a street artist involved/resident affected by graffiti. Choosing a balanced perspective and weighing up the arguments could prove equally effective. Ideas and opinions must be derived from the passage, developing its claims and supporting opinion with clear and persuasive arguments.

**Marking criteria for Section 2, Questions 2, 3, 4 and 5**
Use table A to give a mark out of 13 for content and structure, and table B to give a mark out of 12 for style and accuracy.

Table A, Composition: Content and structure

<table>
<thead>
<tr>
<th>Band</th>
<th>11–13</th>
<th>General criteria</th>
<th>Specific criteria</th>
</tr>
</thead>
</table>
| Band 1 | W1: Content is complex, sophisticated and realistic.  
W2: Overall structure is secure and the constituent parts well balanced and carefully managed. | Many well-defined and developed ideas and images create a convincing, original, overall picture with varieties of focus. | The plot is convincing with elements of fiction such as description, characterisation and climax, and with cogent detail. |
| Band 2 | W1: Content develops some interesting and realistic features in parts of the writing.  
W2: Writing is orderly, and beginnings and endings are satisfactorily managed. | Frequent, well-chosen images and details give an impression of reality, although the overall picture is not consistent. | The plot incorporates some interesting features, but not consistently so: the reader may be aware of the creation of suspense and a sense of climax. |
| Band 3 | W1: Content is straightforward with ideas, features and images that satisfactorily address the task; some opportunities for development are taken.  
W2: Overall structure is competent and some sentences are well sequenced. | A selection of relevant ideas, images and details addresses the task, even where there is a tendency to write a narrative. | The plot is straightforward and cohesive with some identification of features such as character and setting. |
| Band 4 | W1: Content consists of relevant ideas that are briefly developed.  
W2: Overall structure is easily followed, though some constituent parts are too long or too short to be effective. | The task is addressed with a series of ordinary details, which may be more typical of a narrative. | Recording of relevant but sometimes unrealistic events outweighs other desirable elements of narrative fiction. |
## General criteria

| Band 7 | 0 | W1: Content is rarely relevant and there is little material.  
W2: The structure is disorderly. |
|--------|----|---------------------------------------------------------------------|

## Specific criteria

### Descriptive Writing

Where a narrative is written, the recording of events may preclude the use of sufficient descriptive detail.

### Narrative Writing

The plot is hard to follow and is only partially relevant.

| Band 6 | 1–2 | W1: Content is inconsistent in relevance, interest and clarity.  
W2: Structure is frequently unclear, revealing a limited grasp of purpose. |
|--------|-----|---------------------------------------------------------------------|

### Descriptive Writing

Some relevant facts are identified, but the overall picture is unclear and lacks development.

### Narrative Writing

The plot lacks coherence and narrates events indiscriminately.

| Band 5 | 3–4 | W1: Content is simple, and the presentation of ideas and events may only be partially credible.  
W2: Overall structure is recognizable though paragraphing is inconsistent and sequences of sentences insecure. |
|--------|-----|---------------------------------------------------------------------|

### Descriptive Writing

Where a narrative is written, the recording of events may preclude the use of sufficient descriptive detail.

### Narrative Writing

The plot is a simple narrative that may consist of events that are only partially credible or which are presented with partial clarity.
