CONFIDENTIAL INSTRUCTIONS

Planning Session: 1 hour 30 minutes
Practical Test: 2 hours 30 minutes

Great care should be taken that any confidential information given does not reach the candidates either directly or indirectly.

READ THESE INSTRUCTIONS FIRST

1 Paper 2, Practical Test, will consist of eight tests, numbered 1-8, five of which will be selected by the Examiner as suitable for the schools at which he/she is to examine. Schools will be notified by the Examiner which five tests he/she has selected.

Centres which do not have access to a visiting examiner will be able to select and examine the Practical Tests, provided they have been given approval by Cambridge International Examinations.

2 The Examiner has been requested to inform the school of the time of arrival, the time of the first Practical Test session, the approximate time of subsequent sessions, and whether he/she will require lunch.

3 One week before the commencement of the first session of the Practical Test in your school, the sealed packet of question papers will be opened by the Principal, and the five selected tests will be allocated to the candidates in strict alphabetical order. Each candidate will take one test.

4 Candidates will then be allowed 1½ hours in which to plan the test. This is the Planning Session. The carbonised sheets provided are to be used to make two copies of the work, top copy (white) for use by the Examiner and bottom copy (pink) for use by the candidate during the cooking and to be retained by the Centre after the Practical Test. Candidates should present their work as follows:
   Page 1 – Plan of Work showing list of dishes chosen with the ingredients required for each dish
   Page 2 – Time Plan
   Page 3 – Shopping List showing the total amount of each ingredient required.

Candidates must not take away with them a copy of the tests or of their plans or notes, and they may not bring any other notes to the Practical Test. On no account may the Plans of Work be altered by anyone in the school, nor should teachers give information to candidates about the working of the tests. The Shopping List with total quantities of ingredients is to be handed to the Food and Nutrition teacher, who will be responsible for ordering the necessary materials. The list must not be added to. If any ingredient not on the list is provided, the Examiner must be informed. The Plans of Work and Time Plans should be collected by the Supervisor and sealed in an envelope without anyone seeing them. The question papers must also be collected and locked away. The question paper, Plans of Work, Time Plans and Shopping Lists on which the candidates’ names and candidate numbers and the numbers of their tests must be clearly written, are to be handed to the Examiner on his/her arrival.
The candidates are to be allowed the use of recipe books both for the Planning Session and
during the Practical Test itself, but they should be advised to avoid making constant reference to
them during the Practical Test.

The time allowed for the Practical Test will be 2½ hours. The written plans will be returned to the
candidates at the beginning of the Practical Test.

On the day of the Practical Test, the special perishable ingredients ordered by candidates should
be placed on their individual work tables. All general ingredients such as flour, fat, dried crumbs
for coating, etc., must be placed on another table in the room. A small excess of these ingredients
should always be available.

It is requested that no food be previously cooked unless the candidate states in the plan that it is
required for a particular dish. There should be no making of fresh breadcrumbs, grating of cheese,
preparation of vegetables, mincing of meat or filleting of fish before the Examiner starts the tests.
Grinding of spices, preparation of coconut and soaking of pulses may be done before the Practical
Test if this is stated in the Plan of Work. Frozen, tinned and packaged foods (i.e. ‘convenience’
foods) may be used with discretion when they form part of a dish which has already shown some
skill.

Necessary equipment and serving dishes may be put out, and ovens and work tables allotted
before the Examiner arrives.

The necessary supply of coal, or other solid fuel, should be available so that the candidates may
have no difficulty in keeping the oven hot and fires going. Any fires should be lit beforehand.

At the Practical Test, candidates must wear labels showing clearly their full names and candidate
numbers. There should be sufficient space and adequate equipment allowed for the individual
work by each candidate. Only one candidate should work at a stove of the European type.

A special table, or individual tables, should be prepared for the serving of tests, with named places
for candidates' finished work. These may be prepared before the Practical Test commences.
Candidates should be encouraged to wash up as much equipment as possible during the Practical
Test.

During the Practical Test, the Food and Nutrition teacher should be within call, but only the
Examiner and the candidates will be in the examination room. The following should be provided
on a tray for the Examiner's use: knife, teaspoon, small jug or basin, tea towel.

The examination room should be entirely at the disposal of the Examiner for at least a quarter of
an hour before the Practical Test and for at least half an hour afterwards. The Examiner will invite
candidates to enter when he/she is ready for them, and will mark the tests at the end of 2½ hours.
Candidates who have not finished in this time will be liable to lose marks.

A first aid box and a reliable clock should be provided.
